

PODCAST HOSTING PLATFORMS

The tool

Buzzsprout, Podbean, and Spreaker are podcast hosting platforms that provide a variety of tools to help individuals and businesses create and distribute their own podcast content.

<https://www.buzzsprout.com/>

<https://www.podbean.com/>

<https://www.spreaker.com/>

Description

Material required

A device with an internet connection, a microphone, and audio editing software to record and edit your podcast episodes is needed.

Investment required

Spreaker offers both free and paid plans. Buzzsprout and Podbean have four pricing plans.

Possible uses

Create, host and promote podcasts.

Possible restriction

Content that violates copyright or contains hate speech, explicit language, or offensive material may be prohibited.

Technical difficulty (skills needed): ★★

Environmental Impact

The tools mentioned have a low environmental impact. 🌿 🌿 🌿

Indeed, they primarily rely on digital infrastructure to store and distribute podcast content.

Is it inclusive?

Buzzsprout, Podbean, and Spreaker generally offer accessibility features, such as captions and transcriptions, adapted for people with Specific Learning Disorders.
