

SOCIAL MEDIA POST SCHEDULING

The tool

Buffer is a social media management platform that allows users to schedule, publish, and analyse their social media content across various channels, including Facebook, Twitter, Instagram, LinkedIn, and more. It offers features such as a social media calendar, analytics, and the ability to collaborate with team members on social media content.

<https://buffer.com/>

Description

Material required

A device with an internet connection. Additionally, you will need to connect your social media accounts to Buffer.

Investment required

Buffer offers a range of pricing plans, including a free plan with limited features and paid plans with additional features, starting at 6€ per month.

Possible uses

Buffer can be used to schedule and publish social media content, analyse post-performance, collaborate with team members, and engage with followers.

Possible restriction

It may not support all social media platforms or features, so it is important to check the compatibility for your specific needs.

Technical difficulty (skills needed): ★ ★

Environmental Impact

The tool mentioned has a low environmental impact 

Buffer is committed to reducing its environmental impact by promoting remote work, offsetting carbon emissions, and minimizing waste through responsible business practices.

Is it inclusive?

Buffer is designed to be user-friendly, with a simple and intuitive interface. Also, the platform offers various accessibility features, such as high contrast mode, keyboard navigation, and screen reader support, making it inclusive for many users.
