## Description

### Material required

A computer or laptop with an Internet connection and enough software development capacity.

### Investment required

The standard plan is offered for 20€/month for basic business operations and the Premium for 40€/month for further financial tools to operate and grow.

### Possible uses

It helps simplify business plans and could be used for budgeting, forecasting and efficiency tracking.

### Possible restriction

Requires a medium-high level of knowledge in IT and an internet connection, since it is not possible to use it offline.

**Technical difficulty (skills needed):** ★★★★★

## Environmental Impact

**The tools mentioned have a low environmental impact** 

According to website Carbon, Liveplan is cleaner than 85% of tested websites. Nonetheless, it could improve by switching to eco-friendly hosting.

## Is it inclusive?

Training gives users access to the basic Liveplan tools. The software might pose some barriers for users with dyslexia or motor disabilities as the material is not available in other formats such as, for example, audio is presented and you have to move through the pages.
